## The Advisor's Tale

*"I spend time getting to know the young mums – look at their aspirations, self-esteem, confidence and what they want to do in the future. I find the right course for them, help them get into college, do the applications, attend interviews with them and sort out their child-care.*

*I cover the whole of Milton Keynes including Newport Pagnell. I'm in CMK every day to touch base in the office – and having Brook, Connections and YMCA all quite central is good.*

*I think CMK is too expensive. They need to get more of the low price shops in like Primark to cater for the majority."*

Sue Pochin

Connexions Personal Advisor to Teenage Parents.
