The Security Guard's Tale

“On a regular day the common things we deal with are first aid, lost children, preventing banned people from coming into the shopping centre and of course helping the public which is a massive part of our job. That’s what we’re trained for – the customer service and then the security rather than the other way round.”

I like Central Milton Keynes. I generally think it offers a lot for what it is. The shopping is good, the bars cater to most people, a nice amount of restaurants. For the visitors I’d imagine it’s a good place to come and visit. I would like a place to go that plays different music and has generally a more relaxed atmosphere in the Centre.”
