"The best thing I saw was those big massive dragonflies called Emperors, they were cool!"

Reuben

Children from local schools have explored nature on their doorstep and discovered the trees, plants and other living creatures that live in the Parks – the biggest outdoor classroom in Milton Keynes. The Parks Trust's Education team provides a wide range of fun, curriculum-linked activities, team building challenges, games and guided walks to inspire children and add an extra dimension to their lessons.

"We learned loads of things including how you tell the difference between a female and a male spider."

Buhle

"I learnt that bugs sometimes camouflage themselves in to the colour that the grass and trees are."

Carly
